

2018 Cory Ride

20th Anniversary Ride Apparel

Order Form

It's about Cory...

...The bold stripes on the sleeves, the base of the jersey, and the leg mimic the look often found on ice hockey jerseys, something Cory could often be found wearing.

...The right arm and left leg include a goal-tender with number "29", honoring Cory's position and number while playing in the Nassau Hockey League.

...The bikes that travel down the the jersey have a maple leaf as their pedal bracket paying tribute to the Toronto Maple Leafs which had on its roster Cory's favorite player, Felix Potvin. The "29" on the goaltender uses the same font from the Maple Leaf's 1997 jersey.

...The "turtle gears" combine Cory's affection for turtles and biking.

...The orange and blue color theme pays tribute to Cory's favorite baseball team, the New York Mets.
